

NEXT Schlagkartei ^{Office}

NEXT Schlagkartei ^{Office} is used for the planning, documentation and control of agricultural measures in order to comply with the legal documentation requirements. Interfaces to on-board computers, mobile applications and the interlinking with the native modules (Pacht und Antrag, GIS, Teilflächenmanagement etc.) make the documentation effective and easy.

Advantages at one glance

- ◆ documentation of all implemented measures
- ◆ create orders and hand over to board terminals or mobile devices
- ◆ use of stored sample data
- ◆ import and utilization of soil samples

Extensive appraisal

- ◆ field data in the different stages of development
- ◆ crop rotation overview
- ◆ land parcel chronology
- ◆ consumable use
- ◆ operational branch billing

complete documentation

- ◆ QS-label
- ◆ QM
- ◆ Eurep-GAP
- ◆ product documentation
- ◆ warehouse and transport documentation

Advanced function

- + dashboard
- + connection weather station
- + DVO modul
